The August meeting of the HRSMS was a motor cruise aboard Paul Brindza's 42-foot ketch CHRISTEL out of Cook's Marina in Gloucester County. This meeting, held on August 12, was attended by seven lucky members, and the "business" portion consisted of feasting on shrimp, cheeses, and cold beer provided by Paul. We cruised out toward the Chesapeake Bay and watched the night fall under a beautiful starry sky as the shore lights came on. Truly a memorable experience and a fitting end to the summer season. Obviously, no real business was transacted at this meeting, everyone was having too good a time to bring anything up.

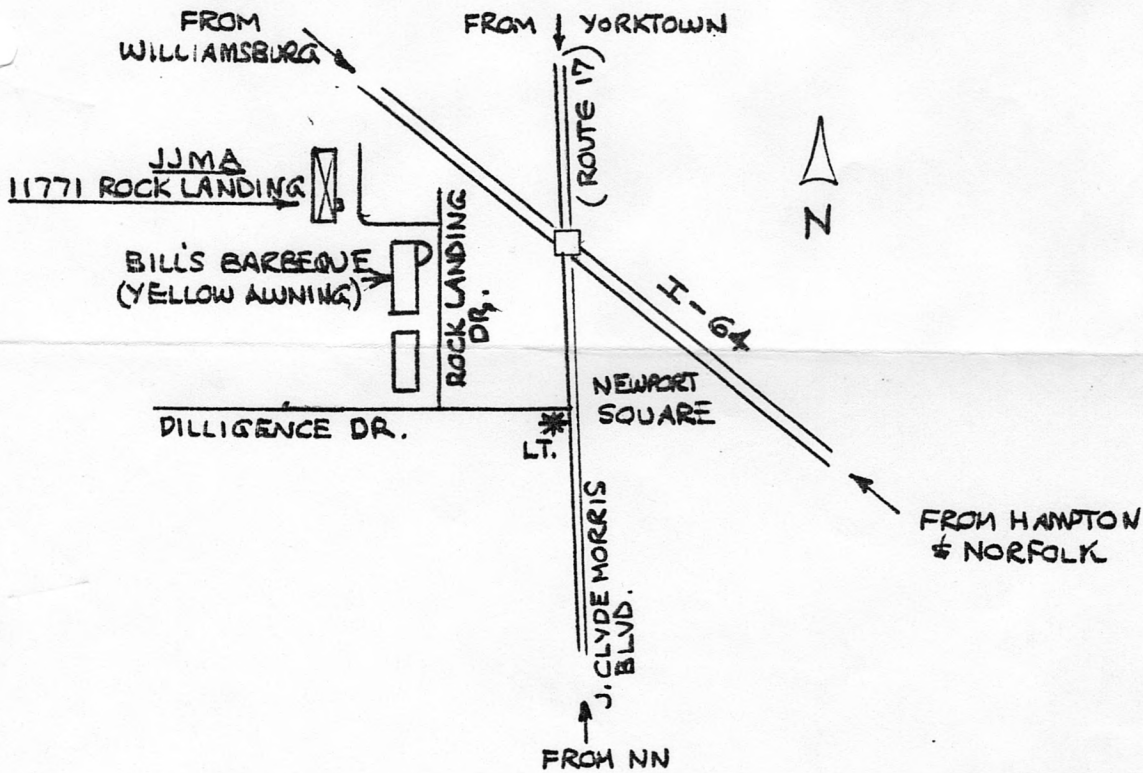

Members are reminded that the Fifteenth Annual Conference of the Nautical Research Guild will be held in Baton Rouge, Louisiana on October 21-23. Some of us are thinking about travelling to Baton Rouge on Amtrak to attend, if you are interested call Bill Clarke at 868-6809. You should note that we regularly receive newsletters and meeting notices from the Washington Ship Model Society. These include a comprehensive List of Coming Events, which details events around the country of interest to ship modelers, and are available from the Purser at our meetings.

Barry Miles has informed us that he will be in Venice on Friday, September 9 (poor guy) and will be unable to host our September meeting. The September meeting of the HRSMS, therefore, will be held at Bill Fox's office (873-6523) at John J. McMullen Associates, Inc., 11771 Rock Landing Drive, Newport News, at 2000 on that date. This is located in the Oyster Point Office Park as shown on the attached map. Bring something to show and tell, and we look forward to seeing you there.

Skipper: Bill Clarke 868-6809  
First Mate: John Cheevers: 875-0732  
Purser: Bill Fox: 253-0310

Paul and Crew aboard CHRISTEL on 8/12/88
